Scrigno S.p.A. has submitted several of its frames for interior use for testing by the Istituto Giordano, to determine their effective performance. In particular, "**Mechanical tests for sliding door accessories**" were carried out on the **Scrigno Gold sliding system (track and hanger)** in accordance with the UNI EN 1527:2000 standard. For further details, the Istituto Giordano "Test Report" dated 08/09/2006 should be consulted.
